This chic, innovative home explores all the possibilities and potential that a side-by-side townhouse can achieve. Cahill Building Group designed, planned and executed this magnificent project, making the most of the sloping block and to produce a family-friendly and unique, industrial-inspired home.

The expert team at Cahill Building Group utilised the land that sloped towards the rear corner to increase ceiling heights in the rear living spaces, maximising the natural lighting while adding a luxurious feel to the home. Contrasting textures and hues feature throughout every facet of this project to create eye-catching and mesmerising spaces.

At the exterior entry of the home, a bold statement is created with the contemporary combination of a black feature wall and wooden decking, showcasing the juxtaposition of texture and colour that features throughout the innovative home. The kitchen and dining space plays with the contrast of the earthy wooden tones, modern black cabinetry and the Quantum Quartz stone splashback. The bathrooms also exemplify this sleek style, with classy black Phoenix Tapware creating a striking focal point against the honed concrete blocks and dark timber vanity.

Cahill Building Group was established by a trio of brothers who each possess unique skillsets that fuse seamlessly to create custom homes and bespoke townhouse developments. Building awe-inspiring projects in the Mornington Peninsula area, the team of specialist builders create around 10-15 flawless homes per year.

Homeowners who collaborate with Cahill Building Group can rest assured that their personalised homes will exceed the minimum energy rating requirements while remaining a modern masterpiece.

Using only the best resources available, the designers and builders work with clients to ensure that their needs and style are at the forefront of the design and build. These amazing, custom-designed homes are a feast for the eyes, all the while being family-friendly spaces for the modern family.

If you're looking for a one-of-a-kind home that stands out from the crowd, then Cahill Building Group will turn your dream idea into a reality.
